

AccelAIRate

A nutraceutical to support the respiratory system of young cattle.
Natural essential oils, herb extracts, and antioxidants

RESEARCH-SUPPORTED FEATURES AND BENEFITS

A unique combination of research-supported ingredients formulated to:

- Preserve respiratory health
- Alleviate symptoms of respiratory disease
- Support the recovery process from respiratory distress
- Maintain animal health

Contains Essential Oils and Herb Extracts

- Antitussive, expectorant, and bronchial dilatives help alleviate symptoms of respiratory distress
- Help reduce irritation of the throat, suppress coughing, and promote expectoration of bronchial secretions

Bioactive Compounds

- Help to stimulate appetite, drive feed intake, and reduce weight loss when animals need nutrients the most

Mannon-Oligosaccharides (MOS), Beta-Glucans and Nucleotides

- MOS help protect the calf against secondary pathogens and are effective in reducing the incidence of scours
- Beta-Glucans stimulate innate immune cells and helps fight infections
- Nucleotides promote fast intestinal cell recovery and enhanced nutrient absorption resulting in better animal performance during pathogen challenges

A completely natural solution

- This combination of immune enhancers, antioxidants, and anti-inflammatory agents help reduce the incidence of infections, decrease oxidative stress, and improve animal performance
- No VFD or prescription required

Highly palatable and allows for multiple application options (liquid diet or dry feed)

- Mixes easily into all application options
- Designed to be mixed into pasteurized whole milk, milk replacer, water, or dry calf feed

WHEN TO USE AND DIRECTIONS FOR USE

AccelAIRate is designed to be mixed into water or dry bunk feed.

Calves weighing 300-650 lbs: Mix and feed at a rate of 10 grams per head per day for a minimum of 10 consecutive days.

Calves weighing over 650 lbs: Mix and feed at a rate of 12.5 grams per head per day for a minimum of 10 consecutive days.

Feed AccelAIRate prior to and during times of respiratory distress such as transporting, regrouping, or environmental challenges.

HERD MANAGEMENT PRODUCTS

AVAILABLE PACKAGE SIZES

2 kg (4.4 lb.) bag*

Case = 6 bags

Pallet = 40 cases (240 bags)

* Bag contains scoop equivalent to ~ 5 grams

10 kg (22 lb.) bag **

Pallet = 100 bags

** Bag contains scoop equivalent to ~ 50 grams

STORAGE

Store in a cool, dry area to maintain maximum shelf life. Reseal immediately after use to preserve natural active components.

RESEARCH

The components of AccelAIRate are supported by multiple research studies.

Refer to the Select Sires AccelAIRate brochure for details of the studies.
