

# WORKING FOR DAIRIES SINCE 1894

National Cattlemen's  
Beef Association

Advancing the business interests of its members is KLA's mission. Officers and staff work to achieve this goal day-in and day-out by working with legislators and regulatory agencies to advance KLA policy. While a large percentage of KLA's membership is composed of beef producers, the association's efforts benefit producers of a variety of ag commodities as well as those engaged in related industries. Recognizing the economic impact of the growing dairy and heifer development industry in Kansas, and the legislative and regulatory issues they have in common with the feedlot industry, the KLA Dairy Council was created in 2008.

- Favorable tax treatment for many dairy inputs.
- Increased trucking weight limits.
- Reduction in dairy inspection fees.
- Resisting efforts to change definitions in the Clean Water Act.
- Support immigration laws that provide dairy and beef producers access to a stable and reliable workforce.
