

Mill & Maintenance Safety Workshops

Safety Success = ACT, Don't Re-Act

PROGRAM

Anyone involved in and responsible for safety operations and training programs at a feedyard or dairy should not miss this workshop. We will spend the day emphasizing the importance of safety planning. We will review details about real-life incidents and safety strategies which could have prevented them.

Did you know once an accident situation starts to go bad it often leads to "reactions" that make it worse. The real-life events discussed in this program demonstrate this and reinforce how important it is to ACT with safety before an event occurs, so that people don't end up REACTING.

- 10:00 Welcome and Introductions
- 10:05 Program Overview
- 10:10 Accident Prevention 101

 Great Bend

JUNE 20, 2019
10:00 a.m.
 Finney Co. Fairgrounds
 Grandstand Meeting Room
 209 W Lake Ave
 Garden City

SPEAKERS

Chuck Pirie is an independent safety consultant whose years of experience and expertise have improved the safety of Kansas feedyards and dairies. His practical, common sense approach to safety has greatly enhanced the safety among KLA work comp pool members.

Gordon Moore became an independent consultant in 2011 after starting his safety career with Hitch Enterprises ten years earlier. He uses a "safety trailer" to provide participants with a hands-on experience.
